

**WATER DOESN'T WAIT.
NEITHER DO WE.**

**24/7 EMERGENCY SERVICE
361-550-7620**

WHEN WATER STRIKES

- **Call immediately**

Tell us where the water is coming from and whether it is still active.

- **Stay safe**

Avoid standing water near electrical outlets, appliances, or damaged ceilings.

- **Limit the spread**

If it is safe, shut off the water source and move valuables away from wet areas.

WATER MITIGATION

Prompt action helps limit additional damage.

- **Water extraction**

Remove standing water using professional extraction equipment.

- **Moisture detection**

Identify hidden moisture in walls, floors, and affected building materials.

- **Structural drying**

Use professional air movers and dehumidification equipment to create controlled drying conditions.

- **Cleaning & finishing**

Complete the mitigation process with detailed final cleaning.

OUR PROCESS

Clear steps. Careful monitoring.

1

EMERGENCY RESPONSE

We assess the source, safety concerns, and affected areas.

2

INSPECTION & DETECTION

Professional instruments help map visible and hidden moisture.

3

EXTRACTION & DRYING

Commercial equipment is placed according to the conditions on site.

4

MONITORING

Moisture readings and drying progress are checked and documented.

5

FINAL CLEANING & DOCUMENTATION

Affected areas are cleaned and the job documentation is completed.

FROM MITIGATION THROUGH FINAL CLEANING

One local team. One documented process.

WHY CUSTOM CLEAN

Certified capability. Hometown accountability.

- **IICRC WRT Certified**

Water Damage Restoration Technician certification.

- **IICRC ASD Certified**

Applied Structural Drying certification.

- **Professional equipment**

Commercial-grade drying and moisture detection tools.

- **Detailed documentation**

Moisture readings, drying progress, and job details are recorded.

- **Locally owned & operated**

Homeowners may call Custom Clean directly.

No insurance referral is required.
